Dear Mr. Charlesworth,

**United States Patent Application No. 10/510403
User Authentication
of Armoursoft Limited
Our ref: P/43856.US01/PADL/VSB/ddc**

You are one of the named inventors on the above-mentioned US patent application of Armoursoft. I enclose a copy of that US specification together with a copy of the amendments recently made to the case by the US attorneys.

The enclosed inventor documents relating to that case need to be signed by you. Armoursoft have previously attempted to send these documents to you but have not been successful, so I am now attempting to send the documents to you directly.

The first document is a Combined Declaration and Power of Attorney. This is simply for you to declare that you are the true inventor of the invention to which US 10/510,403 is directed and also for you to authorise the US agents who are handling the case. **Please sign and date the form on page 2. Please also check your address and, if it is incorrect, please correct it and initial that change.**

The second document is an Assignment, which assigns rights in the above-mentioned application from you to Armoursoft. This is necessary for the US (although not for most other jurisdictions) because it is necessary to apply for a US patent in the name of the individual inventor(s) rather than in the name of the company. **Please sign and date the form on page 2. Please also check your address at the top of page 1 and, if it is incorrect, please correct it and initial that change.**

Please sign and date the documents as discussed above and return the originals to me. **Please note that, for reasons of US law, the two documents should be signed on the same day.** You should note that Mr. Critten and Mr. Larter have already signed their copies of the forms and that I am currently attempting to obtain the signatures of Mr. Green and Mr. Dale.

If you have any questions regarding the documents or feel any unhappiness about signing them, please telephone me. These documents are required in order for the US application to progress, so it is important that I receive some response from you.

Yours sincerely,

Victoria Bradford

Please also check your address and, if it is incorrect, please correct it and initial that change.**

The second document is an Assignment, which assigns rights in the above-mentioned application from you to Armoursoft. This is necessary for the US (although not for most other jurisdictions) because it is necessary to apply for a US patent in the name of the individual inventor(s) rather than in the name of the company. **Please sign and date the form on page 2. Please also check your address at the top of page 1 and, if it is incorrect, please correct it and initial that change.**

Please sign and date the documents as discussed above and return the originals to me. **Please note that, for reasons of US law, the two documents should be signed on the same day.** You should note that Mr. Critten and Mr. Larter have already signed their copies of the forms and that I am currently attempting to obtain the signatures of Mr. Green and Mr. Dale.

If you have any questions regarding the documents or feel any unhappiness about signing them, please telephone me. These documents are required in order for the US application to progress, so it is important that I receive some response from you.

Yours sincerely,

Dear Mr. Charlesworth,

**United States Patent Application No. 10/510403
User Authentication
of Armoursoft Limited
Our ref: P/43856.US01/PADL/VSB/ddc**

You are one of the named inventors on the above-mentioned US patent application of Armoursoft. I enclose a copy of that US specification together with a copy of the amendments recently made to the case by the US attorneys.

The enclosed inventor documents relating to that case need to be signed by you. Armoursoft have previously attempted to send these documents to you but have not been successful, so I am now attempting to send the documents to you directly.

The first document is a Combined Declaration and Power of Attorney. This is simply for you to declare that you are the true inventor of the invention to which US 10/510,403 is directed and also for you to authorise the US agents who are handling the case. **Please sign and date the form on page 2. Please also check your address and, if it is incorrect, please correct it and initial that change.**
